Chemicals & Minerals

We Supply World's Best **Calcium Carbonate ..**

We provide
raw materials
for various trades

About us

Welcome to Shyam Chemicals and Minerals. Established nearly 10 years, Shyam Chemicals and Minerals is a leading manufacturer and supplier of basket of Minerals which includes Calcium Carbonate (Coated and Uncoated). Quartz (Grits, Lump and Powder), Feldspar Powder (Potash and Soda).

Shyam Chemicals and Minerals has grown through the years through Innovation, Creating New Products, Creating New Technologies and enabling process of tomorrow. We practice research and development fundamentals and extensive experience and unparalleled reputation. We have become on leading supplier of high quality minerals in the Indian Market. Our product has a great demand Worldwide which elevates our business to new lengths.

We are committed for our Misison

"Purity, Integrity & Quality"

Quality, Service and Satisfaction are everything for us.

With the team efforts and consistent approach we are climbing the ladder to accomplish the goal of being a prominent mineral source in India.

Our Motive is to become a Global Brand Name in a sustainable way.

CALCIUM CARBONATE

We are into the field of Calcium since last 10 years .We had started with Importing of Calcium Carbonate from Vietnam. In the brand name of SC2 and SC3. Now why did we start with Vietnamese Calcium Carbonate the reason being whiteness and brightness and Calcium percentage. The factories of Vietnam guarantee impeccable quality with world highest whiteness and brightness level (CaCO_3 -98.5%, Whiteness – 99% min, Brightness – 99%). This saves on production costs by Minimizing the need for additional chemical and enhances the whiteness and gloss of final products.

The production units have Meticulas central to meet the standard with less impurities and good quality by conducting dispersion tests on samples from every batch. The production lines are erupted with cutting edge technologies from renowned Hosokawa Alpine in Germany.

What is Calcium Carbonate :

Calcium Carbonate CaCO_3 is a chemical company final naturally in rock, minerals and sea shells. It is the name company of limestone, a sedimentary rock consistiny minerals of calcium carbonate.

PRODUCTS

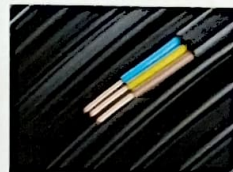

Calcium Carbonate (Coated and Uncoated)

- Vietnamese Calcium Carbonate
- Egyptian Calcium Carbonate
- Indian Ground Calcium Carbonate

Calcium
Carbonate

Various Applications of Calcium Carbonate

- Pipe
- PVC Flooring
- Cables
- PVC Sheet
- Masterbatch
- Plastic Sheet
- Pant & Coating – Interior / Exterior / Emulsion Pant
- Paper Industries
- Construction – Tiles / Asphalt / Ceramic / Concrete

Grades of Calcium Carbonate

Uncoated Calcium Carbonate

SC2 – 20 Micron • SC3 – 13 Micron

Coated Calcium Carbonate

SCC2 – 10 Micron Coated

Coated

S.N.	Product Code	Packing Size	
		D50	D97
1	SCC-2	2.0+/-0.3	10+/-2
2	SCC-3	3.5+/-0.3	17+/-2

Uncoated

S.N.	Product Code	Packing Size	
		D50	D97
1	SC3	2.5+/-0.3	13+/-2
2	SC2	4+1/-0.3	20+/-2

Experience for
Excellence

Specification of Vietnamese Calcium Carbonate

CaCO ₃	99.5% Min
Fe ₂ O ₃	0.01% Max
MgO	0.02% Max
SiO ₂	0.03% Max
Al ₂ O ₃	0.02% Max
Moisture	0.20%
Oil Absorption	23/100 g CaCO ₃
Whiteness	99%
Brightness	98%

Specification of Egyptian Calcium Carbonate

CaCO ₃	99.5% Min
Fe ₂ O ₃	0.01% Max
MgO	0.05% Max
SiO ₂	0.09% Max
Al ₂ O ₃	0.04% Max
Moisture	0.40%
Oil Absorption	17.5 +/-100 g/100ml
Whiteness	98%
Brightness	97%
